## FLEXADIN

with UC-II

### Support the Structural Integrity of Joints

The UC-II® in **Flexadin** helps maintain cartilage structure and support joint health. Its unique patented Undenatured Type II collagen ingredient promotes oral tolerization of collagen in the joint and helps relieve occasional joint stiffness, resulting in less soreness and discomfort. Once daily administration supports joint function, mobility and physical activity.

- ▶ Small frequent exposure to the patented Undenatured Type II collagen helps maintain a normal immune response in the joints
- ▶ Supports healthy joint function and flexibility
- ▶ Promotes joint health and structure

## EPIC® Daily

### Helps to Support Immune and Gastrointestinal Systems

**EPIC® DAILY** is a whole health supplement that provides targeted immune and gastrointestinal support. This product will benefit horses facing challenges that often accompany the intense demands of training, competition, or frequent transport. EPIC® Daily provides immune support using a unique EPIC® technology of egg proteins from hens strategically vaccinated with specific antigens over time.

- ▶ N-acetylcysteine supports healthy liver function
- ▶ Probiotics provide gastrointestinal support
- ▶ Rice bran is a source of Omega-3 & -6 Fatty Acids
- ▶ EPIC® Technology and Taurine promote immune health
